Core Skills: Solution design, technical leadership, complex troubleshooting, SEV-1 escalation management, stakeholder collaboration, requirement analysis, mentoring, and knowledge management

Tools: IDX, VBT, Salesforce CLI, Data Loader, Workbench

EXPERIENCE

Swarm Lead at Salesforce (*May 2024 – Present*)

- Led end-to-end solution design and aligned technical implementations with business requirements.
- Lead real-time case and incident swarms for complex SEV-1 customer issues.
- Acted as a bridge between business stakeholders, support teams, and engineering teams to drive successful outcomes.
- Analyzed customer requirements and translated them into scalable and sustainable solution designs.
- Led technical discussions, design reviews, and solution validation sessions.
- Collaborated with cross-functional teams to ensure successful solution delivery.
- Mentored team members and promoted technical best practices across the organization.

Senior Success Engineer at Salesforce (*July 2023– May 2024*)

- Provided senior-level support for Salesforce Industries Communications Cloud and Vlocity CPQ solutions, ensuring customer success and platform stability.
- Diagnosed and resolved complex configuration, integration, and cart behavior issues in enterprise environments.
- Leveraged hands-on expertise in EPC, ESM, OmniScripts, FlexCards, LWC Cart, and Data Cloud APIs to drive effective solutions.
- Collaborated closely with Engineering and Product teams to accelerate root cause analysis and resolution of critical issues.

- Owned and managed high-priority customer escalations end-to-end, ensuring timely and effective resolution.
- Developed and maintained Knowledge Articles and Known Issue documentation to improve team efficiency and reduce repeat cases.

Technical Success Engineer at Salesforce *(November 2021– July 2023)*

- Provided technical support for Salesforce Industries CPQ and Order Management
- Performed issue replication, debugging, and root cause analysis
- Assisted customers with installation, upgrades, and deployment-related issues
- Maintained SLA compliance while managing a high volume of customer cases
- Collaborated closely with Engineering teams on product functionality discussions
- Authored reusable knowledge articles to accelerate issue resolution

Project Engineer at Wipro *(July 2019 – November 2021)*

- Supported enterprise clients including Amway and Citi Bank
- Worked on user and role management, UDC creation, and deployments using Jenkins
- Gained hands-on experience with Oracle Data Integrator (ODI)
- Resolved batch failures, data issues, and automated recurring fixes
- Collaborated with cross teams for interface issue resolution
